Re: Shoreline Exemption Request for PSE Residential Gas Service Install to 17713 Beach Dr NE within Lake Washington Urban Shoreline Environment

Dear Shoreline Management Planner/Administrator:

Puget Sound Energy (PSE) proposes to install residential gas service to 17713 Beach Dr NE (parcel 403010-0235). The work will fall within the Urban Shoreline Environment of Lake Washington.

To install the service, one 3'x5' bore pit will occur within Beach Dr NE ROW to access the existing 2" PE IP gas main. 1-1/8" PE gas service line will then be installed underground onto private property to location of new gas meter. Project duration is estimated to be one day.

No in-water work or vegetation clearing required. Shoreline views and access will not be affected. The estimated cost for this project is \$3,606.00 and should be exempt from substantial development permit requirements per WAC 173-27-040(2)(a).

PSE requests that the City review proposed utility work and confirm that the project is exempt from the requirements of a Shoreline Substantial Development Permit. If you have any questions, please feel contact me at (425) 457-5216 or at julie.nelson@pse.com.

Sincerely,

Julie Nelson
Associate Municipal Land Planner
