Hydraulic Project Approval (HPA) from the Department of Fish and Wildlife under 75.20 RCW is required if your project includes construction or other work that:

FILE COPY

- Will use divert, obstruct or change the natural flow or bed of any fresh or salt water of the state. This includes all construction or other work waterward and over the ordinary high water line, including dry channels and may include projects landward of the ordinary high water line (e.g., at activities outside the ordinary high water line that will directly impact fish life and habitat, falling trees into streams or lakes, etc.)

Shoreline Substantial Development (SSD), Conditional Use, Variance Permit or Exemption from Local Government (under the Shoreline Management Act, 90.58 RCW) required for work or activity in the 100-year floodplain, or within 200 feet of the ordinary high water mark of Shorelines of the state and which includes any one of the following:

- Dumping, drilling, dredging, filling, placement or alteration of structures (whether temporary or permanent); or any activity which substantially interferes with normal public use of the waters regardless of cost

Washington Joint Aquatic Resource Permit (JARPA) is used to apply for aquatic-oriented permits from federal, state and local agencies and may apply to your project and can be used to apply for HPA approvals, Shore Management and Water Quality Certifications.

Please submit application on the same day to:
